

## AMY WHEATCROFT

### Amy is 23 and lives in St Dennis

I never did well at school. I struggled with all the academic stuff and ended up skipping lessons and taking drugs. I got expelled from school and had children at a young age. I spent my teenage years from the age of 15 drinking and continuing to take drugs. I never lived at home. Getting on the course is just the best thing ever. Until now I've never enjoyed anything that I've done and I can see a future now. One day I hope to be earning a good wage, working in a great restaurant. I want to be able to buy my kids nice things and put a decent roof over their heads.
