

## JAMES CUTTHILL

### James is 24 and lives in Bodmin

I was born in Salisbury but grew up near Bodmin. I'm very lucky as I am from a close family and we support each other despite having our fair share of problems over the years. I didn't really know what I wanted to do at school. I tried a food technology course but didn't find it very interesting, so didn't pursue it. I've always enjoyed cooking at home though. After leaving school I did a degree, but it didn't really get me anywhere and I've been battling with a long term mental illness which I hope I can now keep in check. I am so excited to be on the course. I feel very enthusiastic about what I'm doing and there's so much to take on and learn. I feel honoured to have the opportunity.
