

## JESSICA SMITH

### **Jessica is 16 and lives in Probus**

I didn't really have a great start to my education. I was a difficult child at primary school, and by the time I got to secondary school my life went downhill, big time!

I managed to pick my life up again by the time I took my exams and now I'm 16, I'm just amazed to be on this course. I know my life can only get better.

I hope to continue cheffing in the future, but being happy is the main thing!
